

Network Center, Inc.

We deliver proactive technology solutions and support that ensure our customers achieve the highest level of business success.

Who We Are

Network Center, Inc. (NCI) was founded in 1986 to provide industry specific technology products, service, technical support and interactive expertise to small and mid-sized businesses, as well as enterprise customers. Today, our commitment to our employees, innovating responsibly and dedication to customer success has made NCI into one of the top providers of technology solutions in the Upper Midwest.

We currently have 78 employees in 8 different locations across the United States. In 2015, NCI enhanced its culture by becoming a 100% employee-owned company that allows our employees to share in the company's growth and success.

What We Do

NCI provides cutting-edge technology solutions that can help propel your organization while preparing you for the future. By working as an extension of your team, NCI creates innovative and flexible IT and interactive solutions that are tailored to achieve your specific business goals.
